

COLORI & COORDINATI  
*COLOURS AND MATCHES*

**FASSA  
BORTOLO**

Negli spazi abitativi interni il colore acquisisce valori che vanno ben oltre l'aspetto estetico in quanto, pur coinvolgendo in primo luogo l'arredo, arriva ad influenzare il benessere psicofisico stesso delle persone.

Il colore è soprattutto emozione - e in un soggiorno, in una camera da letto o in qualsiasi altro ambiente - è la cosa che più di ogni altra può offrirci le sensazioni che desideriamo provare quando ci troviamo in quel determinato ambiente.

Ancora di più quando parliamo del colore delle superfici murali le quali, non fosse altro che per la loro dimensione, risultano essere l'elemento preponderante in ogni tipo di locale.

Per queste ragioni Fassa Bortolo ha creato **in-living**, un progetto dedicato specificamente al colore ed alle finiture da interno che si avvale anche del contributo di specialisti del settore quali architetti, interior designers, arredatori.

**in-living** è una selezione di tinte - estratte dai quasi 2.000 colori realizzabili con il sistema tintometrico ColorLife Fassa Bortolo - che nel pieno rispetto del concetto "colore = emozione = sensibilità individuale" propone suggestioni e armonie cromatiche fra le quali trovare quelle in cui ognuno può riconoscersi.

In piena libertà, oltre ogni stile d'arredo.

*The importance of colour in our homes goes well beyond mere appearance. Colour has a direct effect on the home environment, and determines the psychological and physical wellbeing of the entire family.*

*Colour has a great emotional power. In a lounge, bedroom or any other room in the home, colour, above all else, is what offers us the sensations we desire when we find ourselves in that room.*

*This is particularly true when the colours concerned are those of the walls since, if only for their large dimensions, the walls are the most striking element in any room.*

*This is why Fassa Bortolo has created **in-living**, a project specially dedicated to colour and interior finishes, using contributions from specialists like architects, interior designers and home decorators.*

***in-living** offers a wide selection of tints, extracted from almost 2,000 that can be reproduced using Fassa Bortolo's ColorLife tinting system. In keeping with the concept that "colour = emotion = personal wellbeing", **in-living** offers a wide range of suggestions and colour matches. You can be sure of finding the right one for you.*

*In complete freedom, with no restrictions of style.*

**N.B.** I colori qui rappresentati hanno valore indicativo in quanto sono stati realizzati con procedimento tipografico. Per scelte definitive verificare ogni tinta con una campionatura reale.

**N.B.** The colours illustrated here are purely indicative since they are the result of a printing process. Before making your final choice check the selected colour with a real sample.
